

Baseline Hourly Wages

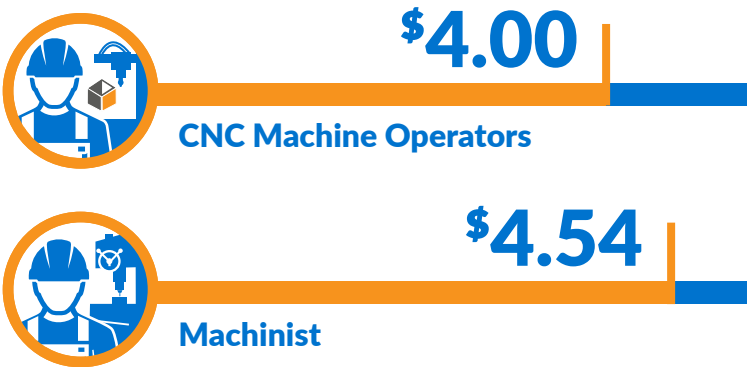

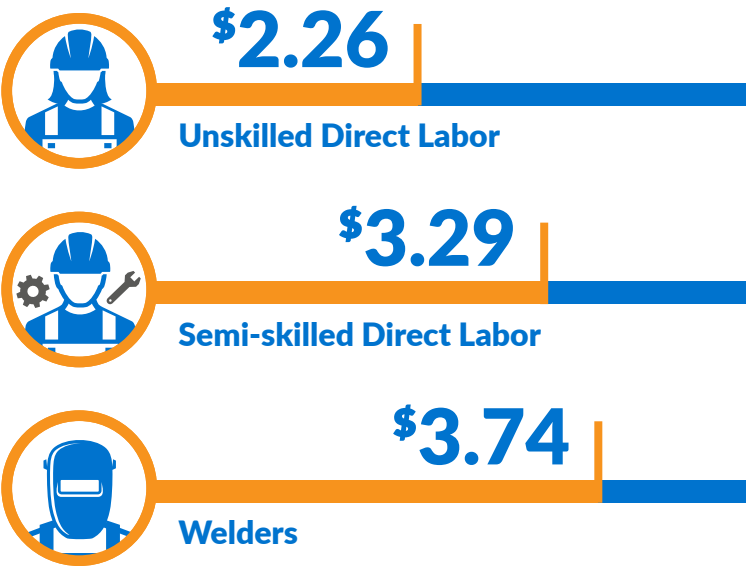

for Direct and Indirect Employees in Mexico

Mexico has an effective workforce, and understanding the baseline wages is a step forward to achieving success as you grow. Based on fully fringed hourly wages at the currency exchange rate of \$1 U.S. to \$17.00 MXN, the infographic below lists average hourly wages in Mexico as a whole. Keep in mind that the area you choose could have a higher or lower average.

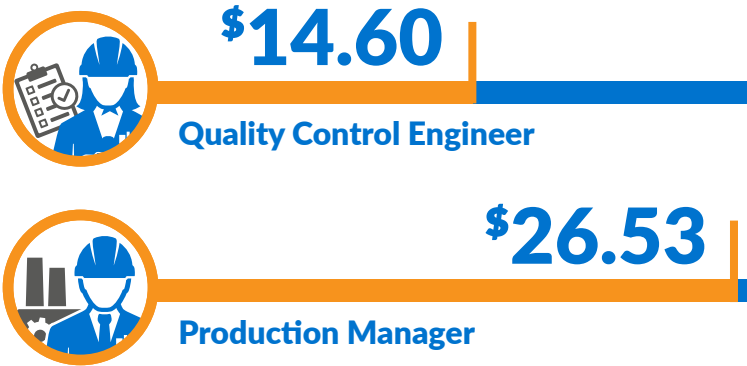

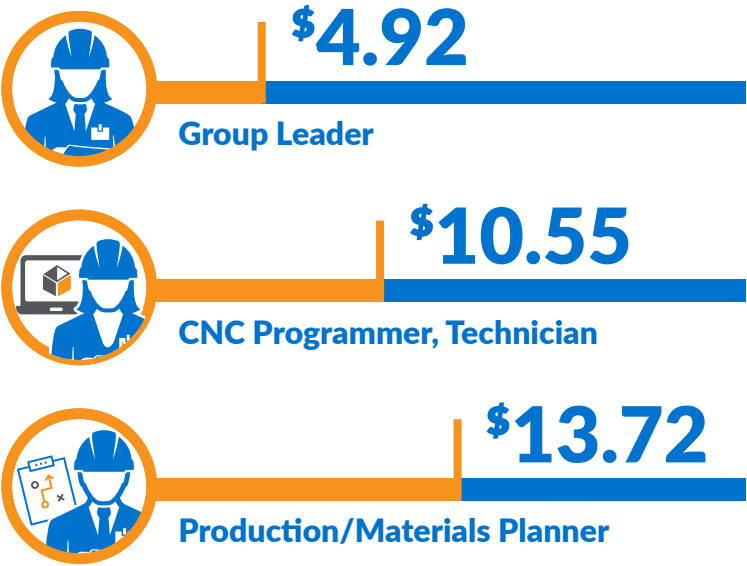

Direct Labor Job Categories

Fully Fringed Hourly Wages (in U.S. dollars)

Indirect Labor/Salaried Positions

Fully Fringed Hourly Wages (in U.S. dollars)

The fully fringed hourly wages were calculated at the currency exchange rate

\$1.00 U.S. = 17.00 MXN

The wages listed are an average of the hourly wages in Mexico as a whole. Wages in certain areas may be higher or lower.
